Silverton FFA website. Also linked on high school website under "Activities" tab

Students enrolled in the Agriculture Science Career Technical Classes at SHS will utilize the 3 component model of Agriculture Education that includes: Classroom Learning, Applied Learning (in a supervised Agriculture experience SAE), and Extension (FFA). A complete Agriculture Education is possible only with involvement in all 3 areas. To provide these opportunities for your students, Silverton Agriculture Science CTE Department will provide FFA membership dues and AET online recordbook access to every student enrolled in Agriculture Science CTE courses.

All students will be full members of the National FFA organization which will allow them to participate in leadership, community service, personal development and competitions within the Silverton FFA Chapter. Membership experiences build over the course of a high school career and students will be eligible for local, state and national awards, recognition and scholarships.

To support classroom learning and document skills and career experiences, all students will be required to maintain an up-to-date online recordbook on <www.theaet.com> They will receive a unique login and password to access their account. The website is available as an app as well.

Though each class and teacher within the Agriculture Science CTE department will have specific requirements for documenting on the AET, this component of the class will be worth 10% of the grade for the class.

Promoting premiere leadership, personal growth and student success .Questions can be directed to Mrs. McArthur mcarthur_sarah@silverfalls.k12.or.us or Mr. Towery towery_scott@silverfalls.k12.or.us

---please return bottom portion-----

Including your contact information will allow us to contact you regarding our program upcoming events. You can also sign up for the REMIND text alert in the box above.

I have read the department syllabus and understand that my student is a member of the Silverton FFA chapter and will be graded on their completion of the AET online record book.
