Procedure:

1. Begin advisory according to personal preference.

4. Inform students that today will be a lesson reviewing the expectations and scoring rubric for their EA project presentations. Handout and project the EA Presentation Scoring Guide and all items that should be included in the EA project Presentation.

6. Open up the attached Sample EA project. Have student follow along on their scoring guide and notice that the presentation includes a slide addressing all aspects of an acceptable presentation.

If you have any students who are not moving forward with this project and on a time line to finish by the end of the first semester, please pull these students aside and talk to them. If you have tried and the student still is not making progress, send an email to me (Heather Bashor) and I will call them in for RIE.
