<b>Next Week</b> Oct 9-13	EA Work Day-Special Schedule Review (Tues) Special Schedule (Wed) Bus Evacuation Drill (Thurs) Fall In-Service - No School (Fri)	CRLE

**Materials:** SHS Website as needed

### Procedure:

1. Begin advisory according to personal preference.
2. Take attendance.
3. Read Announcements.
4. **Side Note:** The National College Fair is in Portland on Sunday, Oct. 29<sup>th</sup> & Monday, Oct. 30<sup>th</sup> (an early release Monday). Barnabas Wong, wants to make sure any seniors who would like to attend the college fair have the opportunity to do so. He has created a survey to gage the interest of students. It is simple and quick. Please have your students go to this link and take the survey. It's only a few questions long. I also created a **link** on the **AG website**. They can access the link from there as well. <https://goo.gl/forms/af6dRQPhf74KWqUk2>
5. Give students time to work on their EA project as you call up one student at a time and check in with them or walk around and check in with one student at a time. Work with them to develop a plan to complete their project requirements. Every student needs to have a conference with their AG teacher and decide which plan they will be completing for the EA project. Please continue to use workdays to check in with each student and make sure each of them are moving forward with their project.
6. Remind all students that their EA project selection should reflect what they think their “next steps” are after graduation. The project should help them map out these next steps so that after they graduate, they are ready to begin their post high-school plan with confidence!
7. **Send a list of any students who may need additional help or are experiencing significant roadblocks with their project to Heather Bashor.**
8. End advisory according to personal preference.
