

# Reflection Paper Guide

## *What did you do and how is it relevant/meaningful to you?*

### **Introduction:**

Share a story, personal experience or quote related to your project. Be creative. The point is to grab the audience's attention.

### **Body of Paper – discuss:**

- A. Why you chose your topic.
- B. The process of decisions you made and steps in doing the project.
- C. The importance of teamwork and your product, including those who helped you.
- D. The importance of communication in connection with your project
- E. Problems you encountered and ways you overcame or solved them
- F. What you learned from doing your project:
  - 1. about the topic,
  - 2. about yourself - your time management, communication, organizational skills and abilities.
- G. What you would have done differently to improve your product or your experience
- H. Questions you might still have as a result of doing the project
- I. How your project connects to your future – 1. Career direction, 2. Transferable skills

### **Conclusion:**

Reflect on the EA project as a whole experience. End with a parting thought, or use a quote to describe your experience, or with a lasting image or a moment that will stay with you or that you will look back on when you think about your senior project.

*Be sure to include as many details, examples and “anecdotes” (stories) as you can, to describe your experience. **Your essay should be in MLA format and 2-4 pages.***

**NOTE: For use in your presentation you may convert your final paper into a PowerPoint that will lead you through your presentation.**
