Materials: Student SMART Goal from Dec. 5th Lesson

Procedure:

1. Begin advisory according to personal preference.
2. Take attendance.
3. Read announcements.
4. Pass out the Winter Court Ballots. Have students choose one male and one female student from their class. Please collect the ballots and replace them in the manila envelope. ASB students will pick them up on Wednesday, Jan. 3rd during AG so to not disturb your lesson.
5. Hand out progress reports and student SMART Goal from the December 5th SMART Goals Lesson. Ask students to look at their progress report and read their goal/goals.
6. Let students know that the end of the semester is only four weeks away. Now is the time to really focus their efforts in order to meet their goals.
7. Lead a discussion with students regarding what realistic steps they can take at this time to improve grades or to keep working in order to maintain their grades and finish the semester strong. Remind them that many courses have finals which can have a significant impact on their grade. Studying for finals is an important skill for them to develop.
8. Discuss with students the steps they can take now to make sure they reach their goals such as setting aside study time every night, breaking up big projects or tests into manageable parts, reviewing their notes or review worksheets, retrying problems and checking their work, taking advantage of retake opportunities, asking to be requested for RIE, etc.
9. Ask students if any of them believe they need to reevaluate their goal? Is their goal still achievable and relevant? Do they want an A in a course that they currently have a C in? Maybe they should adjust their goal to a B?
10. End advisory according to personal preference.
